

ASTRA DF 1607NS

Non-silicone defoamer

Description

ASTRA DF 1607NS is a silicone free vinyl ether polymer defoamer with great defoam ability, high efficiency, low possibility to cause crater. It has excellent performance in coil coating, epoxy coating systems and UV curable systems.

Physical and Chemical properties

Ingredient: Vinyl copolymer

Appearance: Light yellow transparent liquid

Active part: 100%

Speciality

1. ASTRA DF 1607NS is based on a special vinyl ether copolymer. It has good foam prevention properties and excellent performance in coil coating systems.
2. ASTRA DF 1607NS is highly effective anti-foam agent for high viscosity systems as it can easily provide bubbles releasing from paint medium during stirring.

Application System and Dosage

ASTRA DF 1607NS could be used in 2K PU systems, amino baking varnishes, nitro-based dip coating systems, acid curable amino systems, epoxy solvent-borne and solvent-free systems.

The recommended dosage of the additive is 0.1% to 1.0% upon total formulation.

Package

25kg metal pail.
