

ASTRA DF 2404

Silicone defoamer

Description

ASTRA DF 2404 is an organosilicone defoamer for water-borne systems. It has strong defoaming ability with low dosage. It should be introduced in grinding stage. Particularly effective against micro-foam.

Physical and Chemical properties

Ingredient: Modified polysiloxane

Appearance: Turbid viscous liquid

Content: 100%

Speciality

1. ASTRA DF 2404 is suitable for different water-borne systems.
2. ASTRA DF 2404 has strong anti-foam ability with low tendency to cause craters.
3. ASTRA DF 2404 could be used in high viscosity systems.

Application System and Dosage

ASTRA DF 2404 is suitable for water-borne systems: wood coating systems, general industrial and protective coating systems, printing inks and others.

Usually, the recommended dosage of the additive is around 0.1% - 1% upon total formulation.

Package

25kg metal pail.
