

ASTRA DF 2607NS

Non-silicone defoamer

Description

ASTRA DF 2607NS is a silicone-free defoamer for water-borne systems. It has strong defoaming ability and high efficiency.

Physical and Chemical properties

Ingredient: Silicone-free polymer

Appearance: Yellow transparent liquid

Content: 100%

Speciality

1. ASTRA DF 2607NS is suitable for water-borne systems.
2. ASTRA DF 2607NS should be introduced at the grinding stage during the manufacture.

Application System and Dosage

ASTRA DF 2607NS is used in water-borne systems.

Usually, the recommended dosage of the additive is around 0.05% - 1.0% upon total formulation. It is suggested to introduce the additive at the grinding stage under sufficient shear forces.

Package

25kg metal pail.
