

ASTRA DISP 3006

Dispersant

Description

ASTRA DISP 3006 is a macromolecular hyper-dispersant, it has excellent wetting and dispersing ability of various organic pigments. It could decrease the viscosity of the system and increase the pigment content. ASTRA DISP 3006 provides great anti-floating and anti-flooding performance.

Physical and Chemical properties

Ingredient: Block copolymer with pigment affinity groups

Appearance: Yellow transparent liquid

Active part: 45%

Solvent: Mix with dibasic ester

Speciality

1. ASTRA DISP 3006 is suitable for medium polarity systems, it has good compatibility with most of common resins.
2. ASTRA DISP 3006 has excellent ability to improve the storage stability of pigment pastes.

Application System and Dosage

ASTRA DISP 3006 is suitable for 2K PU, alkyd, acrylate and polyester systems, amino baking varnishes and UV curable systems.

Usually, the additive should be introduced before the grinding stage during the manufacture with 10 - 15% dosage upon inorganic pigments, with 30 - 90% dosage upon organic pigments, with 70 - 100% dosage upon carbon black.

Package

25kg metal pail.
