

ASTRA LA 205NS

Non-silicone leveling agent

Description

ASTRA LA 205NS is a leveling agent based on a fluorinated acrylic copolymer. It could provide excellent leveling with rapid leveling speed and has good compatibility with most of common resins.

Physical and Chemical properties

Ingredient: Fluorinated acrylic copolymer

Appearance: Light yellow transparent liquid

Active part: 50%

Solvent: Dipropylene Glycol Monomethyl Ether

Specialty

1. ASTRA LA 205NS has good compatibility and provides good leveling in solvent-borne systems.
2. ASTRA LA 205NS could decrease the surface tension of the paint film in order to improve the substrate wetting.

Application System and Dosage

ASTRA LA 205NS is suitable for solvent-borne and solvent-free systems (alkyd systems, acrylic systems and amino baking systems).

Usually, it is recommended to introduce the additive at a random stage during the manufacture with 0.1% to 1% dosage upon total formulation.

Package

25kg metal pail.
