

ASTRA LA 4301

Leveling agent

Description

ASTRA LA 4301 is a special modified polysiloxane. It is suitable for all kinds of solvent-borne systems. Because of its OH group it could participate in crosslinking in PU and melamine systems. It could provide excellent anti-blocking and slip properties. It is particularly suitable for soft-feel coatings. ASTRA LA 4301 could provide excellent anti-graffiti property.

Physical and Chemical properties

Ingredient: Special modified polysiloxane

Appearance: Viscous transparent liquid

Active part: 100%

Speciality
