

ASTRA LA 605NS

Non-silicone leveling agent

Description

ASTRA LA 605NS is a leveling agent based on a fluorinated acrylic copolymer. ASTRA LA 605NS has excellent leveling performance with fast leveling speed. ASTRA LA 605NS could decrease the surface tension of a paint film and has good anti-crater properties.

Physical and Chemical properties

Ingredient: Fluorinated acrylic copolymer

Appearance: Colorless transparent liquid

Active part: 70%

Solvent: Naphtha

Specialty

1. ASTRA LA 605NS has good compatibility and provides good leveling in solvent-borne systems.
2. ASTRA LA 605NS can decrease the surface tension of the paint film in order to improve the substrate wetting.

Application System and Dosage

ASTRA LA 605NS is suitable for solvent-borne and solvent-free systems (alkyd systems, acrylic systems and amino baking systems).

The recommended dosage of the additive is 0.1% to 1% upon total formulation.

Package

25kg metal pail.
